

Serial No.10/807,041

R E M A R K S

Claims 10 and 12 have been amended to incorporate structure of base claim 1 and of intervening claims, and should now be allowed.

Base claim 1 has been correspondingly amended to recite c) and d) as follows

c) the spinner comprising

iii) a hub, and

iv) spaced apart arms extending outward
from said hub,

d) and including a drive that rotates the spinner at a speed causing said arms to audibly modulate sound waves passing through openings between the arms.

Accordingly, claim 1 should be allowable for reasons supporting Examiner indicated allowability of claim 12.

Claim 11, as amended, should also be allowable, for such reasons.

No art including Edwards teaches or suggests any of the claims as now presented for Action.

The '112 rejection is believe obviated by amendment of claim 14.
